

## RACE BIB/TIMING CHIP INSTRUCTIONS

Please use **BOTH brown zip ties** to secure your timing chip to either shoe – the chip must be located below the height of your knee in order to be read at the Finish Line. Don't lose your chip on the course! We'll collect them at the Finish Line – they are **NOT** disposable!

Your timing chip **MUST be properly oriented** to maximize the 'read' as it crosses the timing mat located at the Finish Line. Please line the plastic housing up so that the housing is vertical – the number on the chip should face either to the right or to the left. See the illustration below –

**YES**

**NO**
